EDUCATION

BMSCE Bengaluru

B.E. in Information Science

August 2009 - May 2012

Dynamic Quality Assurance Engineer with 7 years of comprehensive experience in Android and Web application development and testing. Proven expertise in both software development and quality assurance, seeking to leverage skills and knowledge to contribute effectively as a Test Automation Engineer for mobile and web applications

EXPERIENCE

CSTEP

Feb 2019 — Jun 2024

Senior Software Engineer

- Led and executed comprehensive test strategies for **Android, Web, and API** applications, ensuring high-quality deliverables and adherence to user requirements and project deadlines.
- Developed and executed test plans, test cases, and test scripts for functional, regression, and performance testing on all platforms, including Postman for API testing.
- Provided feedback on UI and UX design to improve the overall quality of applications.
- Conducted regression testing to validate fixes and ensure stability across different versions and devices.
- Developed and managed automation scripts for **Android apps** using **Java** and Object-Oriented Programming concepts.
- Utilized **SQL** efficiently for database tasks and data manipulation.

Tesco

Sep 2015 – Oct 2017

Software Engineer

- Designed and developed innovative **Android applications** focusing on usability, performance, and scalability.
- Collaborated with cross-functional teams to gather requirements, architect solutions, and deliver high-quality software products.
- Implemented best practices for code review, version control, and continuous integration to maintain code quality and project efficiency.
- Participated in the full software development lifecycle from concept and design to testing and deployment.
