

# SAGAR BHILAWADE

QA AUTOMATION ENGINEER

PUNE, MAHARASHTRA

📞 7841970321 ✉ [BHILAWADESAGAR321@GMAIL.COM](mailto:BHILAWADESAGAR321@GMAIL.COM) [in LINKEDIN-SAGAR](#) [GITHUB-SAGAR](#)

## PROFESSIONAL SUMMARY

Detail-oriented QA Engineer with over **2.5 years** of experience in both **manual and automation testing**. Skilled in building scalable **Selenium frameworks** using **Java** and **RestAssured** for API automation, achieving **90% regression test coverage** and reducing manual efforts by **60%**. Adept in **functional, regression, smoke, UI/UX, integration, and API testing**. Proficient in tools like **TestNG, Maven, Jenkins, Log4j, Oracle, Apache Hive**, and **Selenium WebDriver**, with hands-on experience in **CI/CD pipelines**, cross-browser testing, and collaborative agile development.

## Technical Skills

**Programming Languages:** Java, Python, JavaScript, SQL

**Automation Testing Tools:** Selenium WebDriver, TestNG, RestAssured, Cucumber, Gauge

**Manual Testing Skills:** Functional Testing, Regression Testing, Smoke/Sanity Testing, UI/UX Testing, Cross-browser Testing, API Testing (using Postman), Swagger

**Agile & Project Methodologies:** Agile Scrum, Sprint Planning, Stand-ups, Sprint Retrospectives, PI Planning

**Test Management & Defect Tracking:** Jira

**Reporting & Logging Tools:** Extent Reports, Allure, Log4j

**Build & CI/CD Tools:** Maven, Gradle, Jenkins, Git, GitHub, GitLab, Docker

**Databases:** Oracle, MySQL, Apache Hive, SQLite

**IDEs:** IntelliJ IDEA, Eclipse, Visual Studio Code

## Experience

### NielsenIQ

November 2022 – Present

*QA Engineer (Manual + Automation)*

*Pune, Maharashtra*

- Built scalable Selenium frameworks (Data-Driven, POM, Hybrid) in Java for UI and **RestAssured** for API automation, reducing manual testing by **60%**.
- Automated **300+ test cases** across 5 modules in **CIP-PLUTO-AUTOMATION**, achieving **90% regression coverage**.
- Integrated with **TestNG, Maven, Jenkins**, reducing feedback cycles by **70%** through efficient CI/CD pipelines.
- Executed comprehensive cross-browser testing.
- Performed in-depth **Manual Testing** including functional, regression, UI/UX, and smoke testing.
- Created detailed **test plans, test cases**, and traceability matrices.
- Conducted **API testing** using **Postman** and **RestAssured**, validating with **Oracle** and **Apache Hive**.
- Used **Jira** for defect tracking, collaborating closely with developers.
- Utilized **Apache POI** for test data management, generating comprehensive **HTML, Extent, and Allure** reports for insightful analysis and efficient debugging with **Log4j**.
- Collaborated with DevOps teams to resolve build failures and optimize pipelines.

## Automation Projects

### CIP\_PLUTO\_WEB\_AUTOMATION | *Selenium, Java, TestNG, Maven, POI, Allure, Extent* 2022 Nov – Present

- Designed and developed a **Hybrid Selenium automation framework** (integrating **Data-Driven** and **Page Object Model**) for comprehensive UI testing of the CIP web applications.
- Automated **300+ critical web test cases** across 5 modules, achieving **90% regression coverage** and significantly reducing manual testing efforts.
- Leveraged **Apache POI** for efficient external test data management, enabling robust data-driven testing scenarios.
- Integrated automated tests with **Jenkins CI/CD pipelines** for continuous feedback, and generated detailed **Allure** and **Extent Reports** for insightful test analysis.

### CIP\_PLUTO\_WEB\_API\_AUTOMATION | *RestAssured, Java, TestNG, Maven, Allure, Extent* 2022 Nov – Present

- Built a dedicated **API automation framework** using **RestAssured** in Java for validating the backend services of the CIP web applications.
- Automated key API endpoints, including data validation against **Oracle** and **Apache Hive** databases to ensure data integrity and consistency.
- Integrated API tests into **Jenkins CI/CD** for automated execution, complementing UI tests and providing comprehensive system validation.
- Utilized **Allure** and **Extent Reports** to provide clear and detailed insights into API test execution results and failures.
